10:00am - 12:00pm	<p>Welcome</p> <p align="center">AGIC Chairperson's Address Kevin Blake</p> <p align="center">Keynote Address Chris Aldridge, CP (ASPRS), RPP, SP</p> <p><i>Oh, you work in geospatial... so that's like Google, right?</i></p> <p>What does the future look like for the next generation of GIS practitioners, surveyors, photogrammetrists, and engineers? The profession I (we?) have chosen is changing at an unprecedented rate. In this talk, we'll take a look at some of the technology that has shaped our past along with the technology that is going to help shape our future and bring the different geospatial disciplines closer and closer together. We'll also discuss what cool tools and applications are just around the corner (or here already!) and why an understanding of "geospatial" is more important now than ever before.</p>
